Re: Application Number 10/814,033

Dear Ms. Lewis,

I am writing in response to the recent Office communication concerning the above application papers dated 9/14/2005. Responses and the corresponding corrections have been made as shown below.

**Response to information disclosure statement (detailed action 1):**

The listing of references in the specification is cited not a proper information disclosure statement and not submitted in a separate paper. To correct these deficiencies, additional references are added in the reference list and presented in a separate paper. Two added references are also mentioned in the BACKGROUND OF INVENTION section. (See correction 1 for details).

**Correction 1:**

To correct the deficiency regarding detailed action 1, add following additional references and keep references in a separate paper.

<u>1863960</u>	Jun., 1932	Aronson.
<u>3490448</u>	Jan., 1970	Grubb.
<u>5954679</u>	Sep., 1999	Baranitsky.
<u>5939339</u>	Aug., 1999	Delmore
<u>6573419 B2</u>	Jun., 2003	Naimer.

Note: Naimer's U.S. Patent Application Publication No. 2002/0052570 A became official granted patent no. 6,573,419 B2 that was used in the corrected references list.

Meanwhile, add following to the end of 6<sup>th</sup> paragraph of the BACKGROUND OF INVENTION section.
